

March 19, 1979

LB 348

has been made and we are planning on putting on some language on Select File to cover that.

SENATOR JOHNSON: Okay, but these are all issues the bill doesn't yet address, is that correct?

SENATOR SIMON: That is correct.

SENATOR JOHNSON: Thank you.

SPEAKER MARVEL: Senator Duis.

SENATOR DUIS: Senator Simon, this piece of legislation really does bother me. Are you going to ask the question of who is going to be responsible for the damage done to that automobile in towing?

SENATOR SIMON: Senator Clark raised that point and it is a concern that Senator Fowler and I have discussed and we are drafting an amendment on Select File, yes.

SENATOR DUIS: Well, you know, we cats that come from out in the country this is a little bit troublesome to us because people from town here get all of the parking places all parkeu up and I know of one instance where fifteen minutes, a person wanted to get in the store couldn't get in the store, went across the street, when they come back, their car was gone. \$25, and beings that they were a stranger why it didn't make any difference to the store owner. I kind of liked it the way we had it in the criminal code unless would you object to having an amendment that they must put up a barricade at night so that you are not able to enter that lot and thereby be fooled by all of these...I am not talking about someone who might know about statute, but it says statute 26-da, da, da, on down the line.

SENATOR SIMON: To be honest with you, Senator Duis, I'd just as soon we not even have the darn bill. This is just one of those....

SENATOR DUIS: Okay, let's make a motion to kill it. Then we will be all through with it. How will that be?

SENATOR SIMON: Except for the last section. The last part that we adopted, I would like to keep that but if you want to kill the rest of the bill that is fine with me. The reason that we are introducing it is because we no longer have a bill on the books so actually right now any car that is being towed away is being towed away illegally.
